7.	Anticipated Award Type	Blanket Purchase Agreement (BPA)
		A BPA is a master ordering agreement that establishes unit prices for a category of goods that shall be procured on a recurring basis over a fixed period. Individual purchase/task orders are issued against the BPA for specific quantities as needed. A BPA is a simplified method of procuring recurring commodities or well-defined services which are required on a repetitive basis. Once a BPA has been executed, goods or services may be ordered from the vendor until the time of the agreement is reached without having to solicit bids from various vendors every time the services or goods are required. A BPA does not commit or guarantee that DAI will spend any amount under the agreement. The ceiling, if any, is not the same as a subcontract or purchase order ceiling, it merely sets a threshold for ordering under the agreement.
		Issuance of this RFQ in no way obligates DAI to award a BPA and Bidders will not be reimbursed for any costs associated with the preparation of their quote.
8.	Basis for Award	An award will be made to the responsible bidder whose bid is responsive to the terms of the RFQ and is most advantageous to DAI, considering the following factors: price competitiveness, translation turnaround time, experience with technical translations in the field of environmental justice/donor-funded projects/legal documents, capacity to deliver professional translations in a range of languages (including native languages), references, and submission of a high- quality sample translation.
		To be considered for award, bidders must meet the requirements identified in Section 12, "Determination of Responsibility". No discussions or negotiations are permitted with bidders, and therefore bidders shall submit their best and final price.

A list of the "Developing Countries" as well as "Advanced Developing Countries" can be found at: http://www.usaid.gov/policy/ads/300/310maa.pdf</li> <li>DAI must verify the source, nationality and origin, of goods and services and ensure (to the fullest extent possible) that DAI does not procure any services from prohibited countries listed by the Office of Foreign Assets Control (OFAC) as sanctioned countries. #### Background:

#### Summary of Current U.S. Government Requirements- DUNS

The Data Universal Numbering System (DUNS) is a system developed and managed by Dun and Bradstreet that assigns a unique nine-digit identifier to a business entity. It is a common standard world-wide and users include the U.S. Government, European Commission and the United Nations. The DUNS number will be used to better identify related organizations that are receiving U.S. federal funding, and to provide consistent name and address data for electronic application systems.

Instructions detailing the process to be followed in order to obtain a DUNs number for your organization begin on the next page.

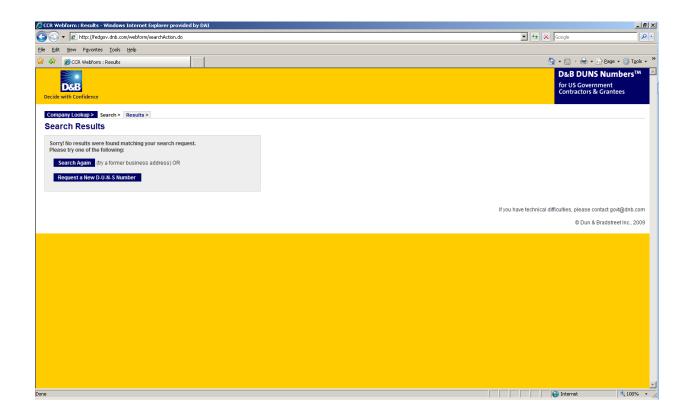

#### THE PROCESS FOR OBTAINING A DUNS NUMBER IS OUTLINED BELOW:

1. Log on to the D&B (Dun & Bradstreet) DUNS registration website to begin the process of obtaining a DUNS number free of charge.

http://fedgov.dnb.com/webform/index.jsp

Please note there is a bar on the left for Frequently Asked Questions as well as emails and telephone numbers for persons at Dun & Bradstreet for you to contact if you have any questions or difficulties completing the application on-line. DAI is not authorized to complete the application on your organization's behalf; the required data must be entered by an authorized official of your organization.

- 2. Select the Country where your company is physically located.
- 3. You will first be asked to search the existing DUNS database to see whether a DUNS number already exists for your organization/entity. Subcontractors/grantees who already have a DUNS number may verify/update their DUNS records.
- 4. Potential DAI subcontractors/vendors/grantees who do not already have a DUNS number will be shown the screen below. To request a new DUNS Number, the "Request a New D-U-N-S Number" button needs to be selected.

- 5. Enter the information regarding your organization listed on the next three screens. (See screen shots below.) Make sure you have the following information available (in English) prior to beginning the process of entering this section in order to ensure successful registration.
  - > Legal Business Name (commas are allowed, periods are not allowed)
  - Address
  - Phone
  - Name of Owner/Executive
  - > Total Number of Employees
  - > Annual Sales or Revenue (US Dollar equivalent)
  - > Description of Operations
- 6. Note that some fields are Optional, however all other fields must be completed to proceed further with the application process. For example, all applicants must complete the Organization Information sections. The Company Name and Physical Address fields are self-populated based on information previously entered during the initial DUNS search. The question marks to the left of the field provide additional information when you click on them.

- 7. You must select the legal structure of your organization from the pull down menu. To assist you in selecting the appropriate structure that best represents your organization, a brief description of the various types follows:
  - Corporation A firm that meets certain legal requirements to be chartered by the state/province in which it is headquartered by the filing of articles of incorporation. A corporation is considered by law to be an entity separate and distinct from its owners. It can be taxed; it can be sued; it can enter into contractual agreements.

- **Government** central, province/state, district, municipal and other U.S. or local government entities. Includes universities, schools and vocational centers owned and operated by the government.
- Limited Liability Company (LLC) This is a type of business ownership combining several features of corporation and partnership structures. It is designed to provide the limited liability features of a corporation and the tax efficiencies and operational flexibility of a partnership. Its owners have limited personal liability for the LLC's debts and obligations, similar to the status of shareholders in a corporation. If your firm is an LLC, this will be noted on the organizations registration and licensing documents.
- **Non-profit** An entity which exists for charitable reasons and is not conducted or maintained for the purpose of making a profit. Any money earned must be retained by the organization, and used for its own expenses, operations, and programs. Most organizations which are registered in the host country as a non-governmental organization (NGO) rather than as a commercial business are anon-profit entities.

# Community based organizations, trade associations, community development councils, and similar entities which are not organized as a profit making organization should select this status, even if your organization is not registered formally in country as an NGO.

- **Partnership** a legal form of operation in which two or more individuals carry on a continuing business for profit as co-owners. The profits and losses are shared proportionally.
- **Proprietorship**-These firms are owned by one person, usually the individual who has day-today responsibility for running the business. Sole proprietors own all the assets of the business and the profits generated by it.
- 8. One of the most important fields that must be filled in is the Primary SIC code field. (See screen shot below.) The Primary Standard Industrial Code classifies the business' most relevant industry and function.
